Respected Sir/Ma'am,

I am interested in 6 months Summer Internship at your company.

Below are the reasons why I am a perfect candidate for this position.

- **Competitive Programmer** : I love Competitive Programming a lot and have won many awards in it. I have solved more than **600 algorithmic problems** at different coding platforms. I am active mainly on 3 coding platforms **Codechef (5 Star)**, **Codeforces (Specialist)** and **Hackerearth**. My strong areas in Data Structures and Algorithms are Dynamic Programming, Graph/trees, Recursion. Competitive Programming have taught me how to break a big problem into small problems and tackle them separately.
- **Personal Skills** : I am a self motivated, energetic programmer and work with full dedication and sincerity. I am not afraid of challenges, rather it allows me to step out of my comfort zone and allows me to perform even better.
- **Projects** : I have worked on Projects made in Django (mentioned in my resume). I am also familiar with Nodejs and have made few web applications on Nodejs.

I have enclosed my resume for your review. If Given chance I will give my best to stand up to your expectations.

Sincerely,

Kushdeep Mittal
